**Mr. Michael Babcock, Town of New Windsor Building Inspector
Town of New Windsor
555 Union Ave
New Windsor, NY 12550**

Dear Mr. Babcock,

I am a town of New Windsor resident and on more occasions then not myself and my neighbors are overcome by the odor of sewage which seems to be coming from the runoff that originates at the Brittany Terrace Trailer Home Park located on Station Road.

I took it upon myself to obtain a sample of this runoff and have it analyzed by STL Laboratories in Newburgh, NY (results enclosed). As you can see this analysis shows the presence of fecal Coliform thus raising my concerns even more.

At this point the nuisance odor has taken a sideline to my concern for the HEALTH and welfare of my immediate and extended (my parents and siblings also resident in the same area) family. Town water is not yet available at our end of town and we are all now VERY concerned about our wells being CONTAMINATED as a direct result of this contaminated runoff.

Additionally, I believe the D.E.C. should be notified of this condition as I am sure the sewage treatment system at Brittany Terrace falls under some type of D.E.C. regulation. I would ask that you investigate this condition in the interest of the HEALTH and welfare of the residents down stream of Brittany Terrace.

Thank you in advance for your assistance in this matter, I look forward to hearing from you regarding this most urgent matter.

Respectfully,

Stephen Babcock
